The logo of Galgotias University is a circular emblem with three curved, overlapping bands in shades of yellow, blue, and red, set against a light pink background.

# HR Metrics & Analytics

## MSB21T2001

GALGOTIAS  
UNIVERSITY

## Session 16 - Topics to be discussed

- HR Analytics- context and value
- Human Capital Analytics
- Workforce Analytics
- Human Capital Analytics-Architecture
- Levels of Measurement

GALGOTIAS  
UNIVERSITY

## RECAP: SESSION 15

- Types of HR Analytics
- Predictive HR Analytics
- Workforce Analytics
- HR Analytics and Changing Role of HR Managers
- Context discussion -Acquiring Critical Talent often an Intuitive Decision than Analytics based

GALGOTIAS  
UNIVERSITY

## Analytics

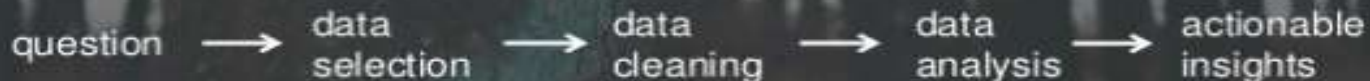

No Context, No Value

Measures or metrics, without analysis, have no true value and in some instances can be dangerous.

## ASK THE RIGHT QUESTION

#startsmall

Every analytics journey starts with a relevant business question or problem.

## Analytics

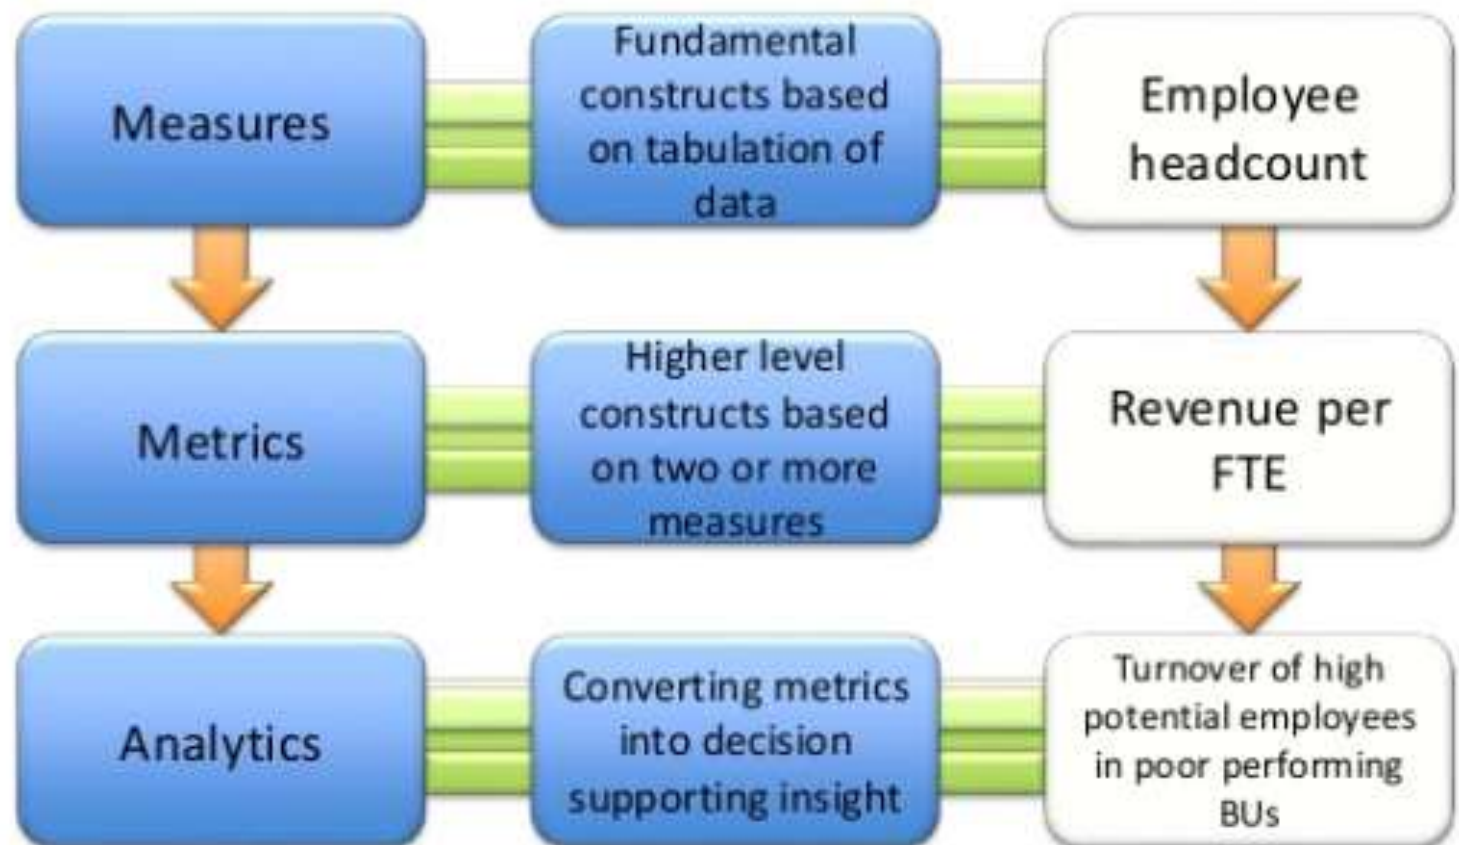

### Human Capital Analytics Today

Highest purpose is to create predictive business indicators that CEOs can use to help chart the course of their business and manage the workforce impacts on business results.

## Analytics

### HR and Workforce Analytics Concepts

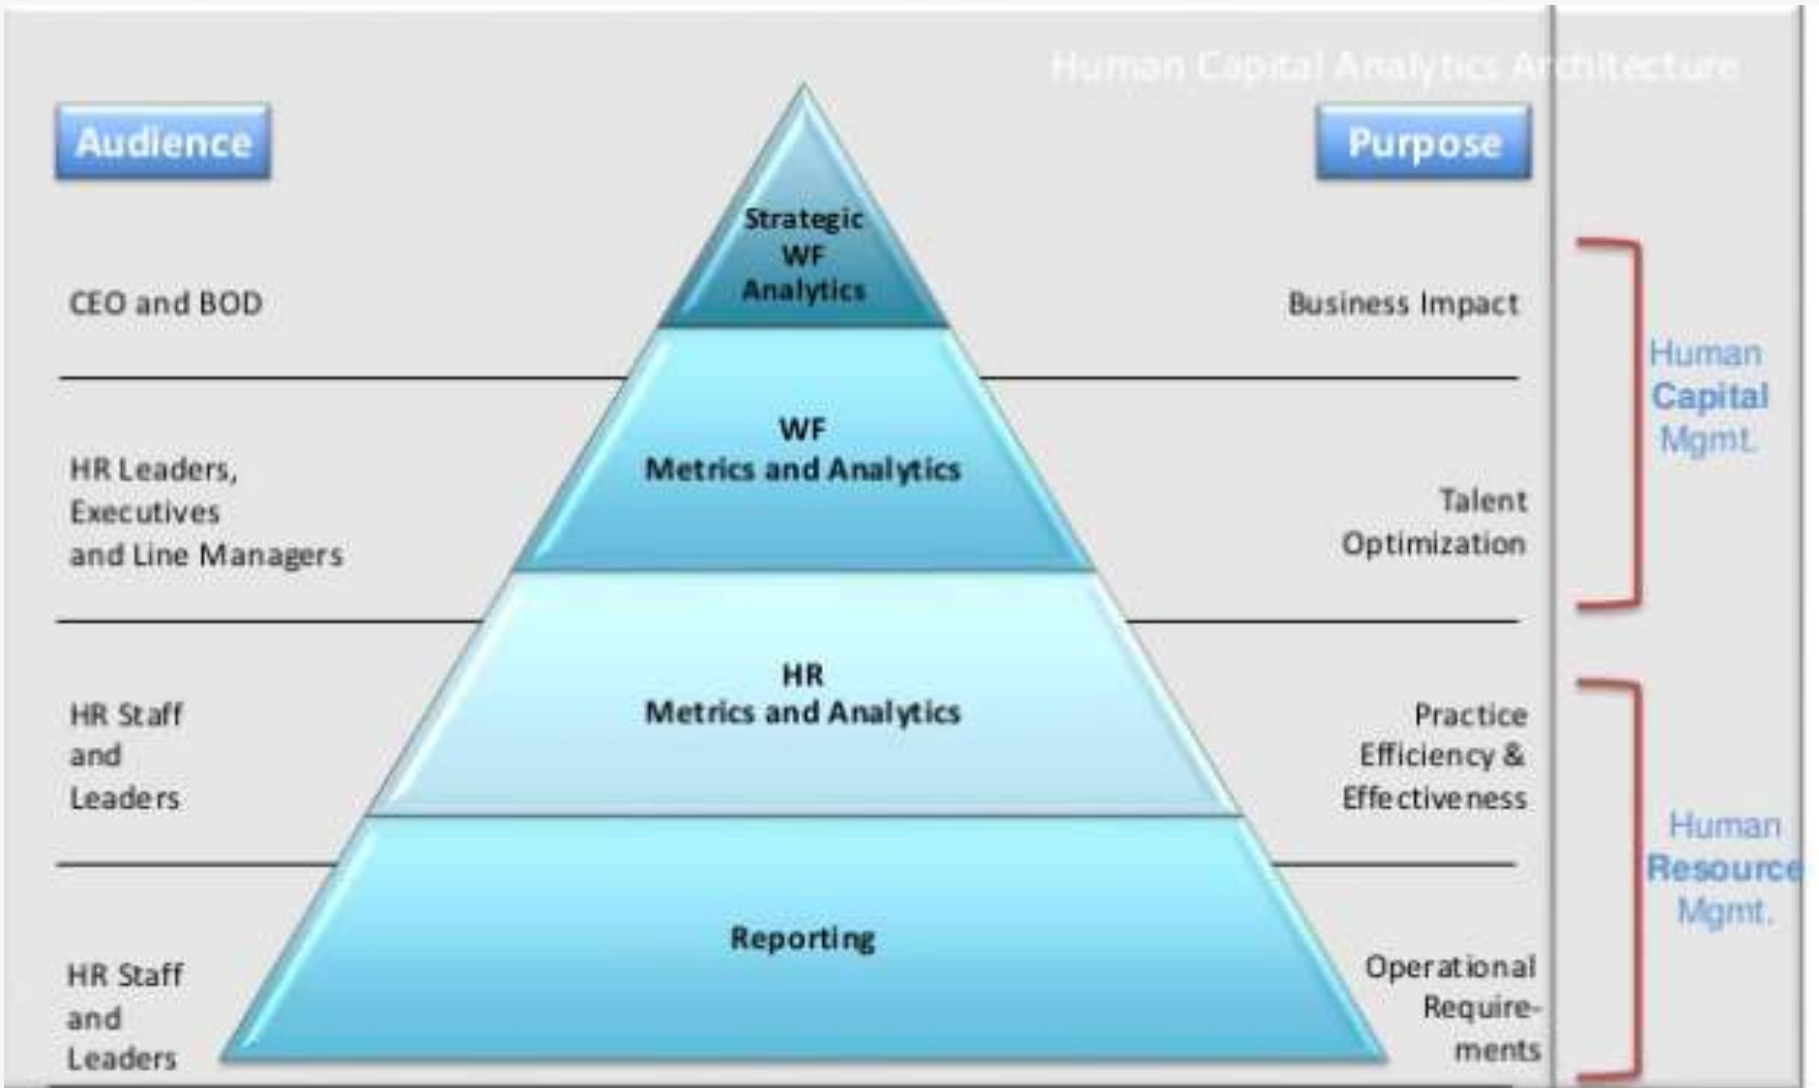

- ▶ The core of HR Analytics is the "metric"
- ▶ **Metrics can be said as data that conveys meaning in a given context**
- ▶ Metric is to be distinguished from numbers
- ▶ Example:

- Employee turnover is 13.5% p.a.	Data
- There is a 4 percent point rise in attrition rate on a year to year basis	Metric
- Inappropriate Leadership styles of select managers resulted in higher attrition of 3% on a comparable basis	Analytic

# School of Business

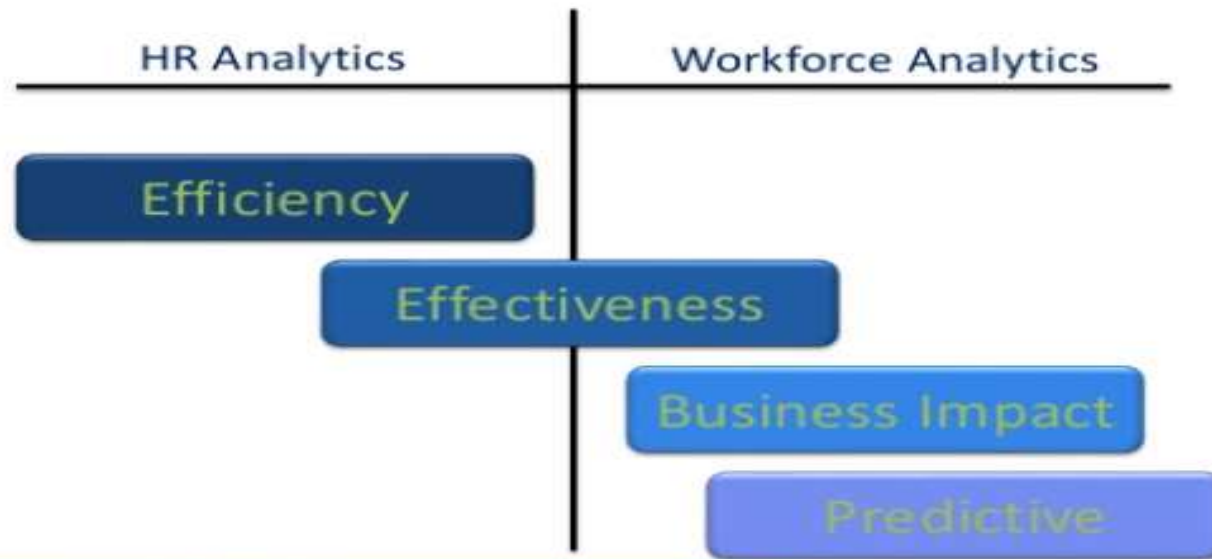

Course Code : MSB21T2001

Course Name: HR Metrics & Analytics

## Levels of measurement

## Metrics By HR Function

Attrition rate

																	=SUM(E6+J6+O6+T6)
Turnover Report	Jan	Feb	Mar	1st Qtr	Apr	May	June	2nd Qtr	July	Aug	Sept	3rd Qtr	Oct	Nov	Dec	4th Qtr	Yr
	5	24	33	62	3	20	15	38	5	12	14	31				0	131
<i>Note: Formulas are included for quarterly and annual totals.</i>																	

## Linking cost per hire, time per hire, attrition and profit

<b>Profit per Employee</b> (Formulas are included)				=SUM(B7-C7)/D7
	<b>Revenue</b>	<b>Operating Expenses</b>	<b>FTEs</b>	<b>Revenue per Employee</b>
January	100000	20,000	10	8000
February				
March				
April				
May				
June				
July				
August				
September				
October				
November				
December				

## Linking Attrition to Profitability

HR professionals gather data points across the organization from sources like:

- Employee surveys
- [Telemetric Data](#)
- Attendance records
- Multi-rater reviews
- Salary and promotion history
- Employee work history
- Demographic data
- Personality/temperament data
- Recruitment process
- Employee databases

Once data is gathered, HR analysts feed workforce data into sophisticated data models, algorithms, and tools to gain actionable insights. These tools provide insights in the form of dashboards, visualizations, and reports. An ongoing process should be put in place to ensure continued improvement:

- Benchmark analysis
- Data-gathering
- Data-cleansing
- Analysis
- Evaluate goals and KPIs
- Create action plan based on analysis (continuously test new ideas)
- Execute on plan
- Streamline process
