GALGOTIAS
UNIVERSITY

NCC AS A METHOD OF TEACHING

It is an opportunity for formal discussion by free exchange of knowledge and experience on a common problem.

To design a nursing care conference

- a) There should be consultation visit from a clinical nurse practitioner.
- b) It must be planned around some aspect of nursing care or scientific focus of a nursing problem presented by the patient.
- c) It must be based on the course of an “action discussion”.
i.e assessing the nursing problem, helping the staff to examine clients problem.

PLANNING AND PREPARATION FOR NCC

- Organizers should prepare well in advance.
- Before presenting the subject must be planned on objectives.
- The student must be aware of the data regarding a case.
- Students must be given an opportunity to work in ward for little time before presenting the conference.

ADVENTAGES & DISADVENTAGES

ADVENTAGES:

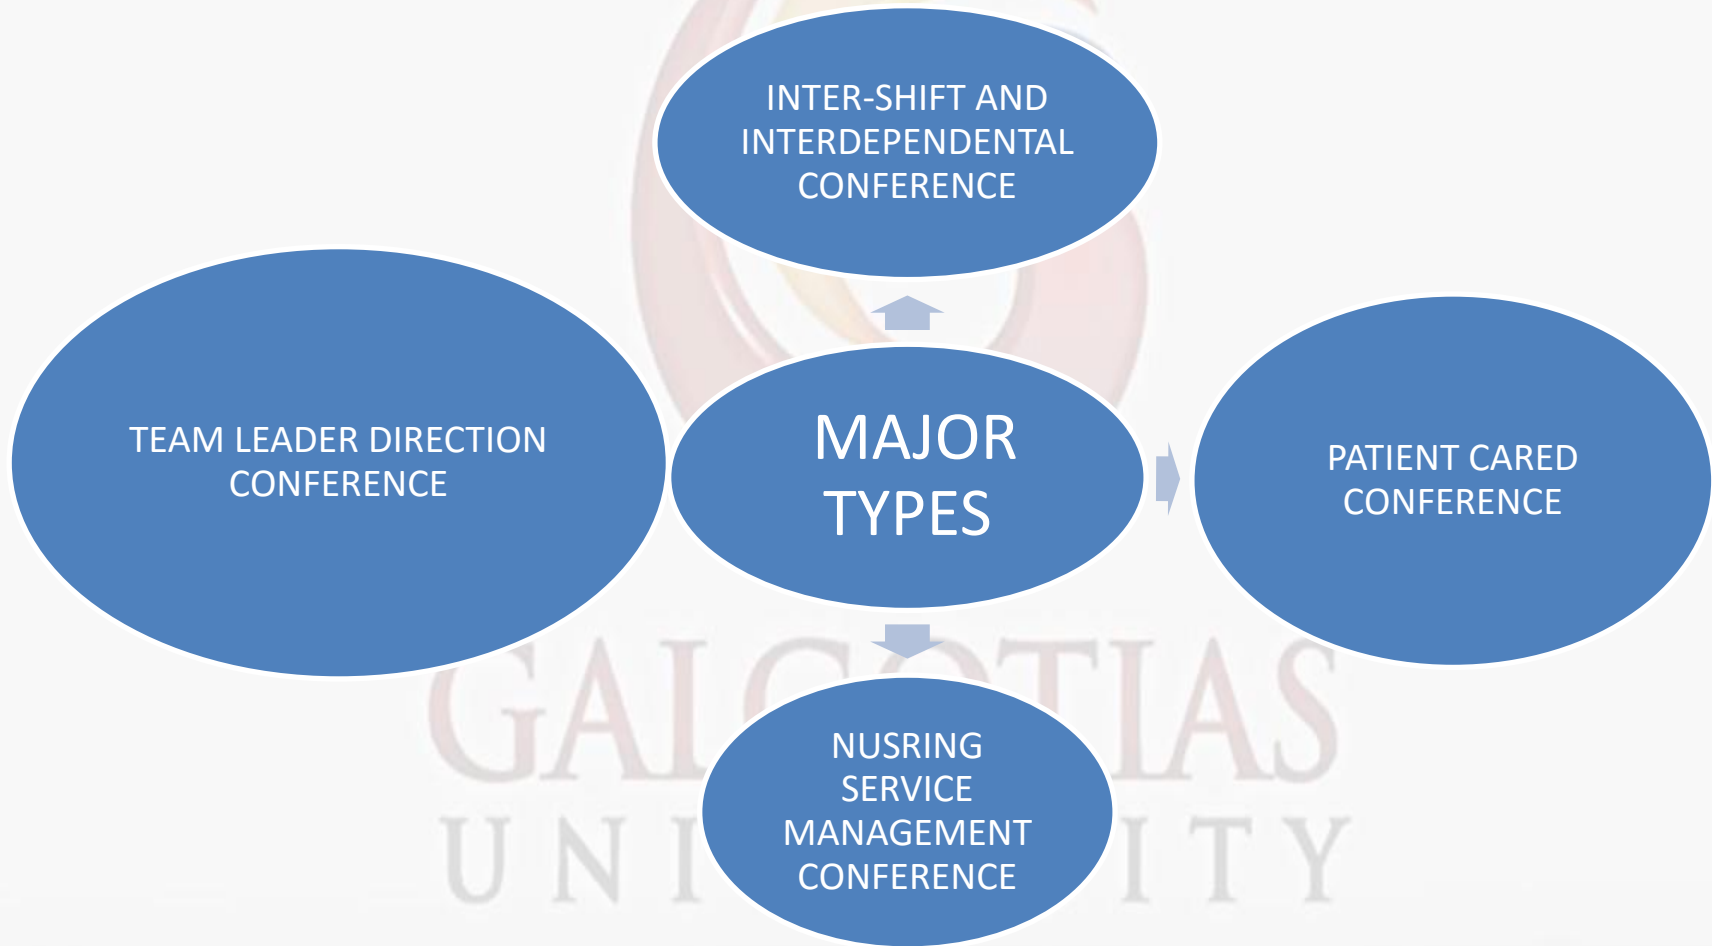

- Active participation.
- Fortifies the thinking of students.
- Provide a real practical experience and environment to the students.
- Helps the students to collect information in a creative way, validates the data systematically.

DISADVANTAGES:

- Has little used if the students do not accustom the situation.
- Conference hour may be used for classroom teaching.
